

# Sreeja Pulaparty

## AI and Low-Code Specialist

*"Redefining Tech at the Speed of Now"*

**Mission:** Empowering businesses with AI and low-code solutions to streamline workflows and drive innovation.

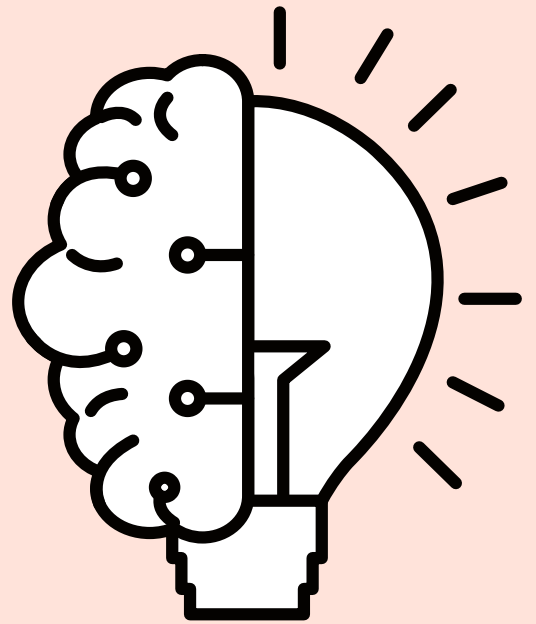

**Vision:** To lead AI-driven digital transformation, making automation seamless and scalable.

## AI + Low-Code = What Sets Me Apart!

### My Skills

*Hi, I'm a Computer Science graduate with hands-on experience in low-code platforms, and 1.5 years of project experience as a Pega Business Analyst and entry-level Developer.*

I specialize in low-code platforms with expertise in Salesforce and Pega, including App Studio 8.7v and Gen AI Blueprint for building efficient and scalable applications. My skills extend to Java programming, enabling me to develop custom solutions and enhance automation workflows. With a strong foundation in AI-powered automation and business process optimization, I leverage these tools to create seamless, adaptive, and intelligent systems that drive efficiency and innovation.
