Sreeja Pulaparty

"Redefining tech at the speed of now."

In a world of constant evolution and dynamic project demands, adaptability becomes key. Low-code platforms like Salesforce provide the flexibility companies need to keep up with these changes, and that's precisely where my expertise comes in.

About Me

Professional Bio

With 1.5 years of experience as a Business Analyst and System Architect, I have hands-on expertise in designing efficient workflows, implementing secure data models, and automating business processes. I bring a unique blend of deep analytical skills and practical knowledge to each project. My expertise includes working with software tools like Pega (App Studio 8.7v, Gen AI Blueprint) and Salesforce, along with solid experience in programming languages such as Java.
